Revenue vs Profit by Category

Profit Margin by segment

Profit by Sub-Category

Key Insight
Furniture generates $742K in revenue but only $18K in profit (2.4% margin). Tables alone lose ~$17K, making it the single most profit-damaging sub-category.

Business Action
Audit Table pricing and discount rates immediately. Redirect promotional spend toward Copiers and Accessories, the highest-profit sub-categories, to improve overall margin.

Revenue Trend & Forecast

Key Insight:
Revenue is forecast to exceed $100K/month by Q4 2018, extending four consecutive years of ~20% annual growth. Seasonal peaks suggest Q4 will again be the highest-demand period.

Business Action:
Begin capacity and staffing planning now to meet projected Q4 2018 demand. Investment in Technology products and the West region offers the strongest return, based on consistent margin and volume performance.
